Subject: Erasmus application

Dear Internationalization Department

I am a second-year student in Multiplatform Application Development (DAM) and I am writing to express my interest in participating in your Erasmus internship program. I am eager to contribute my skills in IT, AI, and automation while gaining valuable international experience.

Throughout my studies, I have focused on developing technical skills in programming (Java, HTML, CSS) and exploring innovative solutions with AI and automation. And independently exploring innovative solutions with AI and automation for business.

I am highly motivated to apply this knowledge in real-world projects, collaborating in a coordinated team to achieve ambitious goals. Additionally, I am very interested in improving my English skills by working in an international environment, which will enhance my personal and professional growth.

I am confident that my enthusiasm for technology, willingness to learn, and proactive attitude would make me a valuable addition to your team.

I have included some projects that I am proud of in my CV.

Thank you for your time and consideration

Hugo Tarin
